

# CLEAN HYPRO

FIND OUT MORE

Open Innovation Test Bed for Electrolysis  
Materials for Clean Hydrogen Production

## Spearheading clean hydrogen production through

### Innovative OITB Development

Upgrading 9 Pilot Lines for high-quality, sustainable electrolysis materials and processes.

### Comprehensive Support

Offering a full spectrum of technical and non-technical services, we guide innovations from concept to market.

### Empowering SMEs

Our Single Entry Point (SEP) simplifies access for SMEs, fostering successful business growth.

### Two Open Calls

Inviting industries and SMEs to engage with our network, these calls are crucial for testing and showcasing innovative electrolysis technologies.

### Real-World Validation

Through democases, we demonstrate the practical effectiveness of our solutions, ensuring market readiness.
